Hardware

Feltforms & Mounting Tape

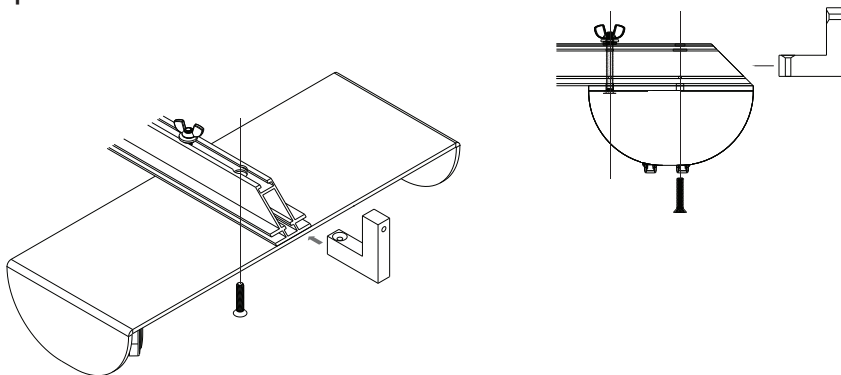

Step 1

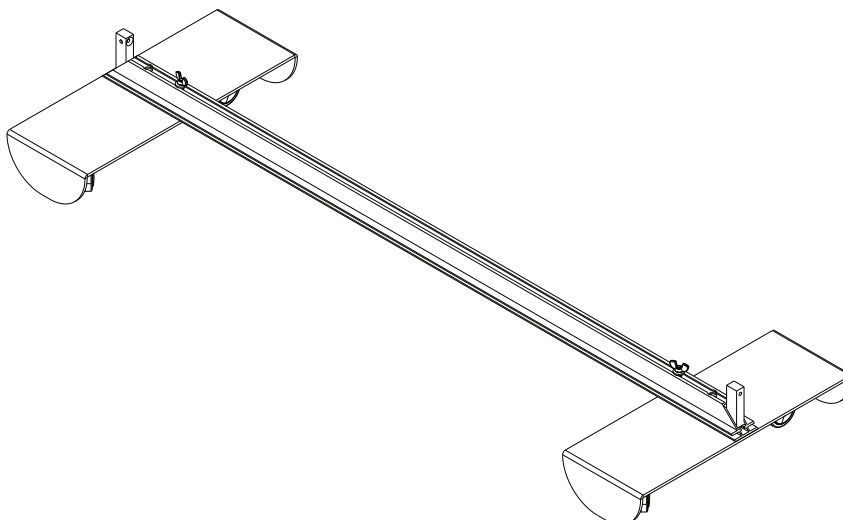

Align and secure the short extrusion with four holes at the bottom to the caster base using the long screw, wingnut and washers.

Step 2

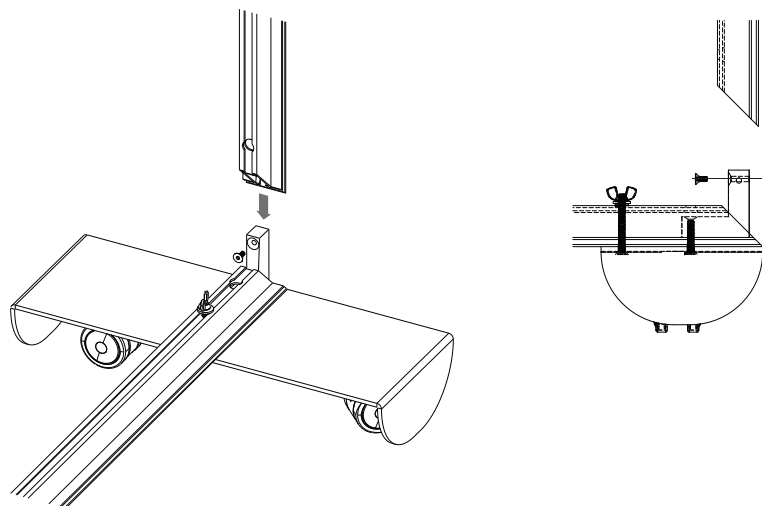

Use the shorter screw to secure the caster base into the threads in the frame.

Step 3

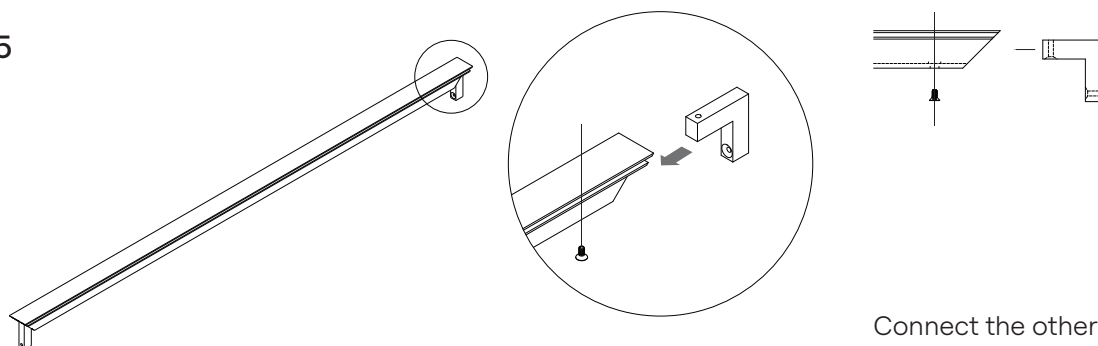

Repeat step 2 so that the bases are securely attached.

Step 4

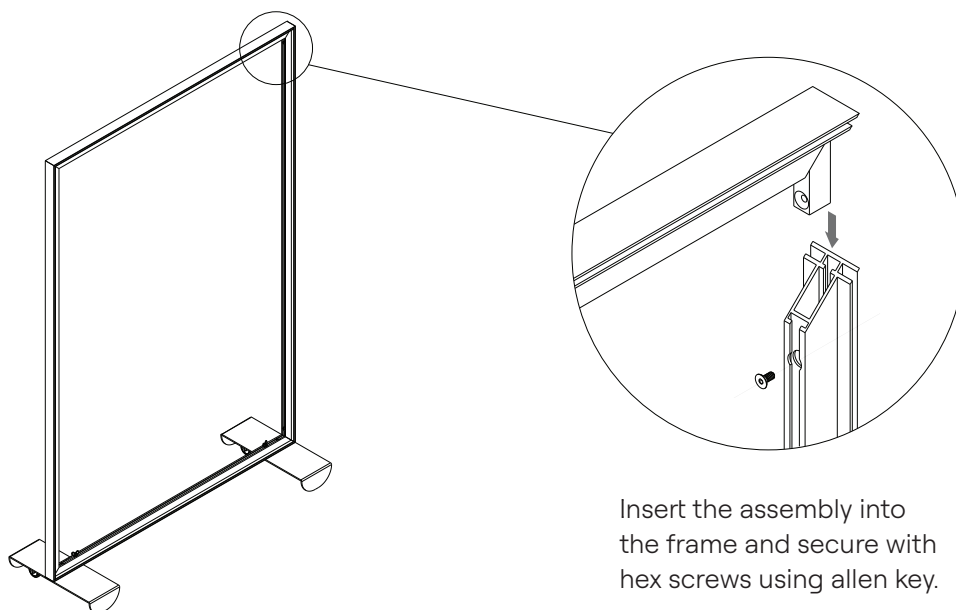

Insert the long vertical extrusion and secure with the hex screw and allen key. Repeat this step on the other side.

Step 5

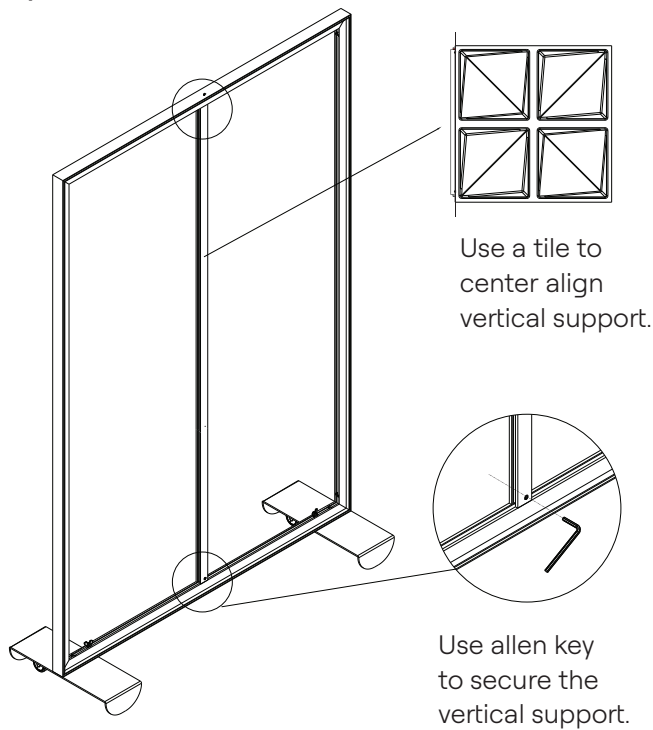

Connect the other set of L brackets by sliding them inside the second short extrusion. Secure with hex screws.

Step 6

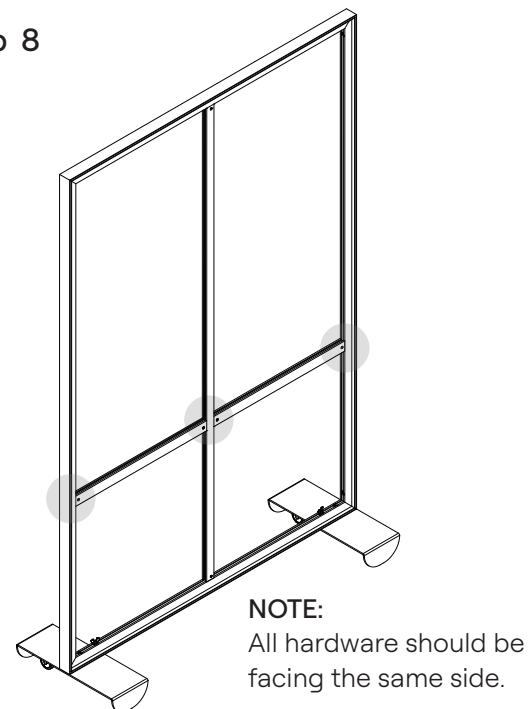

Insert the assembly into the frame and secure with hex screws using allen key.

Step 7

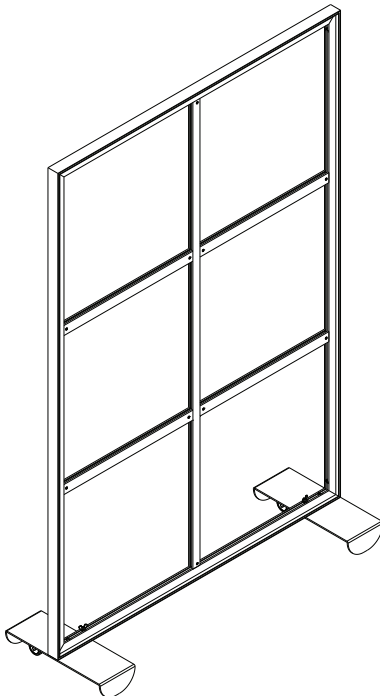

Step 8

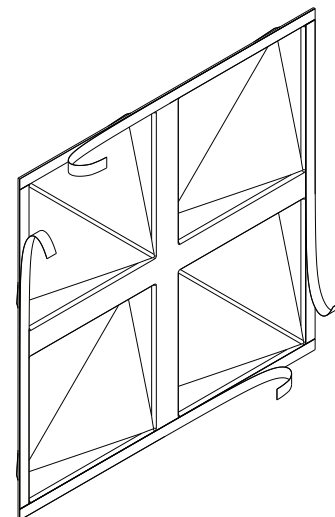

Use a tile to align horizontal bars so that half the cross bar is covered by the tile. Secure the first cross bar with hex screws using allen key. Repeat as highlighted.

Step 9

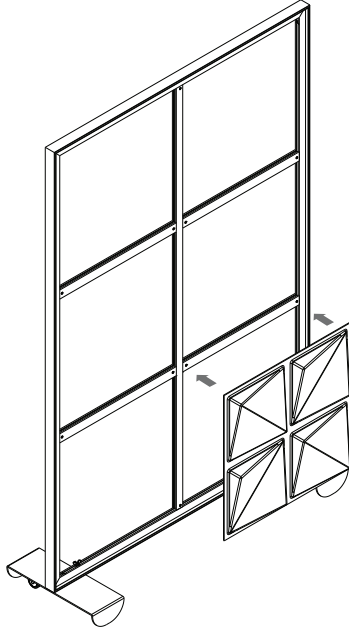

Assemble subsequent rows of horizontal supports. Ensure each tile edge has contact with the cross bars.

Step 10

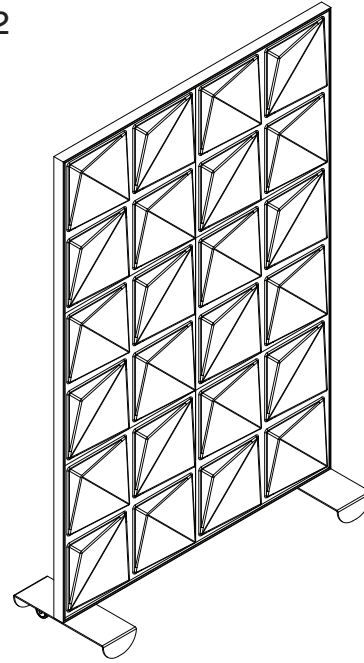

Apply the included adhesive tape strips to the perimeter of the tiles. **Press tape firmly and repeatedly unto tile before removing liner. Use a roller for better adhesion.**

Step 11

Apply tiles starting at the corner. **Press tiles firmly and repeatedly against the frame to ensure proper adhesion to the frame. Pro Tip:** Use the tape liner to avoid peeling.

Step 12

Repeat Step 11 on the other side of the frame.
Place Shift Walls strategically for acoustic privacy.
