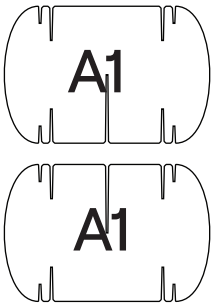
MIO Culture®

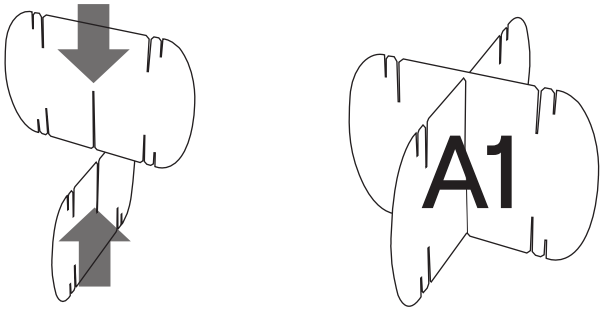
CUSTOM NOMAD SYSTEM

1



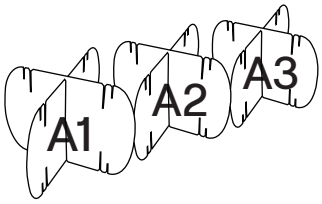
Unpack the Nomad System and sort the modules into number and letter pairs. Each pair of modules should share the same printing but have a center slot opposite to its partner.

2



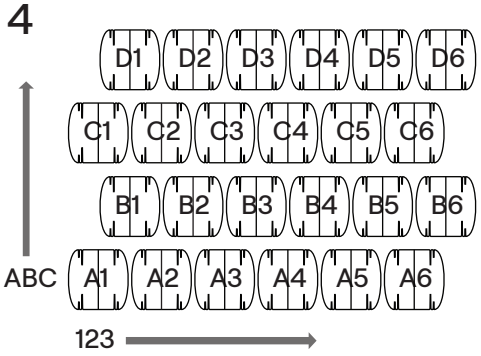
Insert one module into the other along the central slot creating the X assembly shown above. Repeat this step for each pair of modules.

3



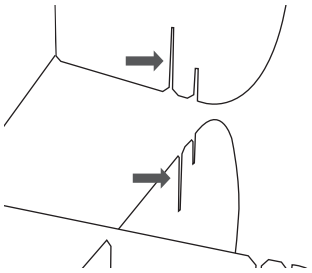
Arrange by number all the X's with the letter A in a row.

4



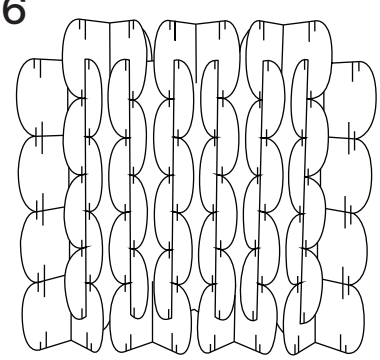
Each X within a row is ordered by number. Each row is ordered by letter.

5



Insert subsequent rows of X assemblies into the bottom row. Use the large side slots indicated above. Repeat this step as needed.

6



Enjoy!
